POLICY TITLE: DEBT MANAGEMENT POLICY

POLICY NUMBER: P - 20

ADOPTION: 07-14-2025

REVISIONS:

POLICY:

The City of Alameda Health Care District (the "District") pursuant to the provisions of section 8855(i) of the California Government Code, prior to the issuance or incurrence of any debt, is required to adopt local debt policies concerning the use of debt and that any proposed debt issuance is consistent with those local debt policies.

GUIDELINES :

Section 1. The debt management policy, hereinafter set forth (the "Debt Policy"), is hereby adopted by "The Board". The Debt Policy has been developed to provide guidance in the issuance and management of debt by the District or its related entities and is intended to comply with section 8855(i) of the California Government Code effective on January 1, 2017. The main objectives are to establish conditions for the use of debt, to ensure that debt capacity and affordability are adequately considered, to minimize "The District's" interest expense and issuance costs, to maintain the highest possible credit rating, to provide complete financial disclosure and reporting and to maintain financial flexibility for "The District".

Section 2. Appropriate officers and officials of "The District" are hereby authorized and directed to take any actions and execute and deliver any and all documents as are necessary to accomplish the provisions and directives of this resolution.

Section 3. This Resolution shall be effective upon adoption by the Board.

DEBT MANAGEMENT POLICY

1. This Debt Management Policy (the "Debt Policy") of the CITY OF ALAMEDA HEALTH CARE DISTRICT (the "District") was approved by "The Board" on June 10, 2024. The Debt Policy may be amended by the Board as it deems appropriate from time to time in the prudent management of the debt of "The District".

2. This Debt Policy will also apply to any debt issued by any other public agency for which "The Board" of "The District" acts as its legislative body.
3. The Debt Policy has been developed to provide guidance in the issuance and management of debt by "The District" or its related entities and is intended to comply with section 8855(i) of the California Government Code effective on January 1, 2017. The main objectives are to establish conditions for the use of debt; to ensure that debt capacity and affordability are adequately considered; to minimize "The District's" interest expense and issuance costs; to maintain the highest possible credit rating; to provide complete financial disclosure and reporting; and to maintain financial flexibility for "The District".
4. Debt, properly issued and managed, is a critical element in any financial management program. It assists in "The District's" effort to allocate limited resources to provide the highest quality of service to the public. "The District" understands that poor debt management can have ripple effects that hurt other areas of "The District". On the other hand, a properly managed debt program promotes economic growth and enhances the vitality of "The District" for its residents and businesses.

FINDINGS

This Debt Policy shall govern all debt undertaken by "The District". "The District" hereby recognizes that a fiscally prudent debt policy is required in order to:

1. Maintain "The District's" sound financial position.
2. Ensure "The District" has the flexibility to respond to changes in future service priorities, revenue levels, and operating expenses.
3. Protect "The District's" credit-worthiness.
4. Ensure that all debt is structured in order to protect both current and future taxpayers and constituents of "The District".
5. Ensure that "The District's" debt is consistent with "The District's" planning goals and objectives and capital improvement program or budget, as applicable.
6. Encourage those that benefit from a facility/improvement to pay the cost of that facility/improvement without the need for the expenditure of limited general fund resources.

PURPOSES FOR WHICH DEBT MAY BE ISSUED

1. "The District" will consider the use of debt financing primarily for capital improvement projects ("CIP") when the project's useful life will equal or exceed the term of the financing and when resources are identified sufficient to fund the debt service

requirements. An exception to this CIP driven focus is the issuance of short-term instruments such as tax and revenue anticipation notes, which are to be used for prudent cash management purposes and conduit financing, as described below. Bonded debt should not be issued for projects with minimal public benefit or support, or to finance normal operating expenses.

2. Long-Term Debt- Long-term debt may be issued to finance or refinance the construction, acquisition, and rehabilitation of capital improvements and facilities, equipment and land to be owned and/or operated by "The District".
3. Long-term debt financings are appropriate when the following conditions exist:
 - a. When the project to be financed is necessary to provide basic and/or specialized services.
 - b. When the project to be financed will provide benefits to constituents over multiple years.
 - c. When total debt does not constitute an unreasonable burden to "The District", its taxpayers and patients.
 - d. When the debt is used to refinance outstanding debt in order to produce debt service savings or to realize the benefits of a debt restructuring.
 - e. Long-term debt financings will not generally be considered appropriate for current operating expenses and routine maintenance expenses.
4. "The District" may use long-term debt financings subject to the following conditions:
 - a. The project to be financed has been or will be approved by the Board.
 - b. The weighted average maturity of the debt (or the portion of the debt allocated to the project) will not exceed the average useful life of the project to be financed unless specific conditions exist that would mitigate the extension of time to repay the debt and it would not cause "The District" to violate any covenants to maintain the tax-exempt status of such debt, if applicable.
 - c. "The District" estimates that sufficient income or revenues will be available to service the debt through its maturity.
 - d. "The District" determines that the issuance of the debt will comply with the applicable requirements of state and federal law.
 - e. "The District" considers the improvement/facility to be of vital, time-sensitive need of the community and there are no plausible alternative funding sources that would be of greater benefit to "The District" than the funding sources selected.
5. Periodic reviews of outstanding long-term debt will be undertaken to identify refunding opportunities. Refunding's will be considered (within federal tax law constraints) if and

when there is a net economic benefit of the refunding. Refunding's which are non-economic may be undertaken to achieve District objectives relating to changes in covenants, call provisions, operational flexibility, tax status of "The District" or its debt profile.

6. In general, refundings which produce a net present value savings of at least four percent of the outstanding principal amount of the refunded debt will be considered economically viable. Refunding's which produce a net present value savings of less than four percent or negative savings will be considered on a case-by-case basis, and are subject to special circumstances.
7. Short-term debt. Short-term borrowings may be issued to generate funding for cash flow needs in the form of Tax and Revenue Anticipation Notes ("TRAN").
8. Short-term borrowings, such as commercial paper, and lines of credit, will be considered as an interim source of funding in anticipation of long-term borrowing or cash flow repayment. Short-term debt may be issued for any purpose for which long-term debt may be issued, including capitalized interest and other financing-related costs. Prior to issuance of the short-term debt, a reliable revenue source shall be identified to secure repayment of the debt. The final maturity of the debt issued to finance the project shall be consistent with the economic or useful life of the project and, unless "The Board" determines that short-term debt should exceed seven years.
9. Short-term debt may also be used to finance short-lived capital projects; for example, "The District" may undertake lease-purchase financing for equipment, and such equipment leases may be longer than seven years.
10. Financings on Behalf of Other Entities. "The District" may also find it beneficial to issue debt on behalf of other governmental agencies or private third parties in order to further the public purposes of "The District". In such cases, "The District" shall take reasonable steps to confirm the financial feasibility of the project to be financed and the financial solvency of any borrower and that the issuance of such debt is consistent with the policies set forth herein. In no event will "The District" incur any liability or assume responsibility for payment of debt service on such debt.

TYPES OF DEBT

In order to maximize the financial options available to benefit the public, it is the policy of "The District" to allow for the consideration of issuing all generally accepted types of debt, including, but not exclusive to the following:

1. General Obligation Bonds ("GO Bonds"): GO Bonds are suitable for use in the construction or acquisition of improvements to real property that benefit the public at large. Examples of projects include hospitals, clinics, and other public safety facilities. All GO Bonds shall be authorized by the requisite number of votes in order to pass.
2. Revenue Bonds: Revenue Bonds are limited-liability obligations tied to a specific enterprise or special fund revenue stream where the projects financed clearly benefit or relate to the enterprise or are otherwise permissible uses of the special revenue. Generally, no voter approval is required to issue this type of obligation.
3. Lease-Backed Debt/Certificates of Participation ("COP"): Issuance of Lease-backed or installment sale/purchase debt is a commonly used form of debt that allows a public entity to finance projects where the debt service is secured via a lease or installment sale agreement and where the payments are budgeted in the annual budget of "The District" from the general fund. COPs do not constitute indebtedness under the state or "The District's" constitutional debt limit and do not require voter approval.
4. "The District" may from time to time find that other forms of debt would be beneficial to further its public purposes and may approve such debt without an amendment of this Debt Policy.

To maintain a predictable debt service burden, "The District" will give preference to debt that carries a fixed interest rate. An alternative to the use of fixed rate debt is variable rate debt. "The District" may choose to issue debt that pays a rate of interest that varies according to a pre-determined formula or results from a periodic remarketing of securities. When making the determination to issue debt in a variable rate mode, consideration will be given in regards to the useful life of the project or facility being financed or the term of the project requiring the funding, market conditions, credit risk and third-party risk analysis, and the overall debt portfolio structure when issuing variable rate debt for any purpose. The maximum amount of variable rate debt should be limited to no more than 20% of the total debt portfolio of "The District".

"The District" should not employ derivatives, such as interest rate swaps, in its debt program. A derivative product is a financial instrument which derives its own value from the value of another instrument, usually an underlying asset such as a bond or an underlying reference such as an interest rate. Derivatives are commonly used as hedging devices in managing interest rate risk and thereby reducing borrowing costs. However, these products bear certain risks not associated with standard debt instruments.

RELATIONSHIP OF DEBT TO CAPITAL IMPROVEMENT PROGRAM AND BUDGET

1. "The District" intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in "The District's" capital budget and the capital improvement plan.
2. "The District" will strive to fund the upkeep and maintenance of its infrastructure and facilities due to normal wear and tear through the expenditure of available operating revenues. "The District" shall seek to avoid the use of debt to fund infrastructure and facilities improvements that are the result of normal wear and tear, unless a specific revenue source has been identified for this purpose, such as parcel tax funds.
3. "The District" shall integrate its debt issuances with the goals of its capital improvement program by timing the issuance of debt to ensure that projects are available when needed in furtherance of "The District's" public purposes.
4. "The District" shall seek to issue debt in a timely manner to avoid having to make unplanned expenditures for capital improvements or equipment from its general fund.

POLICY GOALS RELATED TO PLANNING AND OBJECTIVES

1. "The District" is committed to financial planning, maintaining appropriate reserve levels and employing prudent practices in governance, management and budget administration. "The District" intends to issue debt for the purposes stated in this Debt Policy and to implement policy decisions incorporated in "The District's" annual operating budget.
2. It is a policy goal of "The District" to protect taxpayers and constituents by utilizing conservative financing methods and techniques so as to obtain the highest practical credit ratings and the lowest practical borrowing costs.
3. "The District" will comply with applicable state and federal law as it pertains to the maximum term of debt and the procedures for levying and imposing any related taxes, assessments, rates and charges.
4. Except as described in Section 2.A., when refinancing debt, it shall be the policy goal of "The District" to realize, whenever possible, and subject to any overriding non-financial policy considerations minimum net present value debt service savings equal to or greater than 4% of the principal amount of the debt being refinanced.

INTERNAL CONTROL PROCEDURES

1. When issuing debt, in addition to complying with the terms of this Debt Policy, "The District" shall comply with any other applicable policies regarding initial bond disclosure, continuing disclosure, post-issuance compliance, and investment of bond proceeds.

2. "The District" will periodically review the requirements of and will remain in compliance with the following:
 - a. continuing disclosure undertakings under SEC Rule 15c2-12,
 - b. any federal tax compliance requirements, including without limitation arbitrage and rebate compliance, related to any prior bond issues, and
 - c. "The District's" investment policies as they relate to the investment of bond proceeds.

3. Whenever reasonably possible, proceeds of debt will be held by a third-party trustee and "The District" will submit written requisitions for such proceeds. "The District" will submit a requisition only after obtaining the signature of the Executive Director.

WAIVERS OF DEBT POLICY

There may be circumstances from time to time when strict adherence to a provision of this Debt Policy is not possible or in the best interests of "The District" and the failure of a debt financing to comply with one or more provisions of this Debt Policy shall in no way affect the validity of any debt issued by "The District" in accordance with applicable laws.

4. Test questions, scoring keys, and other examination data used to administer a licensing examination, examination for employment or academic examination.

In addition to the limitations upon disclosure of records set forth in these Guidelines, the District may, in its discretion, withhold inspection of any record or writing when the District determines that on the facts of the particular case the public interest served by not making the record public clearly outweighs the public interest served by disclosure of the record. The District may further withhold inspection of records or writings if, based on the facts and circumstances, the District determines that the request or requests would impose an unreasonable burden on the District, which, based on existing case law, would legally justify withholding the writings or records. Such discretion shall be exercised by the District by and through the Chief Executive Officer or his or her designee, whose decision

Upon receipt, the Subpoena Duces Tecum (a notice to appear and to bring records, or to produce records without appearance) should be forwarded to the Chief Executive Officer. Such records may still be subject to protection against disclosure by reason of the existence of a privilege

or other legal excuse. Therefore, receipt of such a subpoena does not permit disclosure of records in and of itself and the following rules should be followed:

POLICY TITLE: MUTUAL INDEMNIFICATION AND CERTIFICATION AGREEMENT

POLICY NUMBER: P-23

ADOPTION: 07-14-2025

REVISIONS:

POLICY:

It is recommended that the District Board authorize the District Legal Counsel to execute the annual Certification and Mutual Indemnification Agreement between the City of Alameda Health Care District and County of Alameda.

GUIDELINES :

Each year the District Board approves and authorizes the District's Legal Counsel to execute the Certification and Mutual Indemnification Agreement from Alameda County Auditor-Controller Agency (attached). This agreement needs to be executed and returned to the Office of Auditor-Controller by the 2nd week of August. The language is standard and has not significantly changed since 2002.

In 2002, both hospital counsel at the time of the Asset Transfer (Hansen Bridgett) and County Counsel confirmed that the District's Special Assessment does meet the requirements of Proposition 218, which is an updated version of Proposition 13, and that this matter had been thoroughly researched during the due diligence process before Measure A was placed on the April 2002 ballot.

MUTUAL INDEMNIFICATION AND CERTIFICATION AGREEMENT

The CITY OF ALAMEDA HEALTH CARE DISTRICT (hereafter referred to as public agency), by and through its Attorney, hereby certifies that to its best current understanding of the law, the taxes, assessments and fees placed on the 2018/19 Secured Property Tax bill by the public agency met the requirements of Proposition 218 that added Articles XIII C and XIII D to the State Constitution.

Therefore, for those taxes, assessments and fees which are subject to Proposition 218 and which are challenged in any legal proceeding on the basis that the public agency has failed to comply with the requirements of Proposition 218; the public agency agrees

to defend, indemnify and hold harmless the County of Alameda, its Board of Supervisors, its Auditor-Controller/Clerk-Recorder, its officers and employees.

The public agency will pay any final judgment imposed upon the County of Alameda as a result of any act or omission on the part of the public agency in failing to comply with the requirements of Proposition 218.

The County of Alameda, by and through its duly authorized agent, hereby agrees to defend, indemnify and hold harmless the public agency, its employees, agents and elected officials from any and all actions, causes of actions, losses, liens, damages, costs and expenses resulting from the sole negligence of the County of Alameda in assessing, distributing or collecting taxes, assessments and fees on behalf of the public agency.

If a tax, assessment or fee is challenged under Proposition 218 and the proceeds are shared by both the public agency and the County of Alameda; then the parties hereby agree that their proportional share of any liability or judgment shall be equal to their proportional share of the proceeds from the tax, assessment or fee.

The above terms are accepted by the public agency and I further certify that I am authorized to sign this agreement and bind the public agency to its terms.

POLICY NUMBER: P-24

ADOPTION: 07-14-2025

REVISIONS:

POLICY:

"The District Board" hereby levies an annual tax on every parcel and possessory interest within the District's boundaries in the amount of Two Hundred Ninety-Eight Dollars (\$298.00) per year (the "Parcel Tax") in order to defray ongoing hospital general operating expenses and capital improvement expenses; provided, however, that parcels or possessory interests that have an assessed value (real property and improvements combined) of less than \$30,000 shall be automatically exempt from the Parcel Tax.

GUIDELINES :

1. The Alameda County Local Agency Formation Commission ("LAFCO") resolved on January 10, 2002 to present a ballot measure to the registered voters of the City of Alameda which, if approved, would authorize the formation of the new health care district within the boundaries of the City of Alameda and authorize "The District" to levy a parcel tax of up to \$298.00 on each parcel and possessory interest within the proposed district.
2. On April 9, 2002, over two-thirds of the registered voters of the City of Alameda, who voted that day, voted in favor of creating a health care district authorized to tax each parcel and possessory interest within the district's boundaries in an amount up to \$298.00 per year in order to defray ongoing hospital general operating expenses and capital improvement expenses.
3. "The District" was formally organized and began its existence on July 1, 2002.
4. On November 26, 2013, Alameda Health System ("AHS") and "The District" executed a Joint Powers Agreement ("Agreement") pursuant to (i) Chapter 5 (beginning with Section 6500) of Division 7 of Title 1 of the Government Code, authorizing local public entities, including healthcare districts and counties, to exercise their common powers through joint powers agreements, and (ii) Section 14000.2 of the California Welfare and Institutions Code, authorizing the integration of county hospitals with other hospitals into a system of community service.
5. Pursuant to the Agreement, AHS, a public hospital authority created by the Alameda County Board of Supervisors, pursuant to Section 101850 of the California Health and

Safety Code, obtained possession, use and control of Alameda Hospital ("Hospital") from the City of Alameda Health Care District ("District"), a California health care district organized under the California Local Health District Law, California Health and Safety Code 32000 et seq. effective May 1, 2014 pursuant to the Agreement.

6. Pursuant to the Agreement "The District" agreed to fulfill its mission to serve the health needs of the Alameda City Community by using the parcel tax proceeds to finance the capital needs of Alameda Hospital and the continued operation of its hospital and other health related services.
7. Without the levy of a parcel and possessory interest tax in the amount of \$298.00, the District's revenue will be insufficient to allow the provision of continued local access to emergency room care, acute hospital care and other important services to protect and promote safety and health of District residents.
8. "The District" is authorized under Section 53730.01 of the California Government Code to impose special taxes on all real property within its boundaries.
